

## 1 Week 39 (Sprint 3)

| Name   | What did I work on?  | What am I working on?   | What issues are blocking me?                                 |
|--------|--|---|--|
| Henrik |  |   |  |
| Laura  |  |   |  |
| Boti   | Report introduction,<br>Problem formulation and<br>Technical requirements            | Report writing and technical<br>requirements                      | None   |
| Felix  | Researching Lift solutions   | Finding components for<br>scale solutions                         | none   |
| Arthur |  |   |  |
| Casper | Update task details on<br>sprint 3 issue and create new<br>tasks from coming sprints | Finalize the time plan and<br>create more tasks for new<br>sprint | Could use some assistance<br>with coming up with new<br>task |

## 2 Week 40 (Sprint 4)

| Name   | What did I work on?                            | What am I working on?                            | What issues are blocking me?  |
|--------|--|--|---|
| Henrik |  |  |   |
| Laura  |  |  |   |
| Boti   | Beginning of the report                        | Beginning of the report                          | Lack of time  |
| Felix  | Got connections to Bauhaus<br>warehouse leader | questioning him and<br>research similar projects | always starting to look for<br>mechanical solutions before<br>start of design phase |
| Arthur |  |  |   |
| Casper |  |  |   |

### 3 Week X (Sprint X)

| Name   | What did I work on? | What am I working on? | What issues are blocking me? |
|--------|---------------------|-----------------------|------------------------------|
| Henrik |                     |                       |                              |
| Laura  |                     |                       |                              |
| Boti   |                     |                       |                              |
| Felix  |                     |                       |                              |
| Arthur |                     |                       |                              |
| Casper |                     |                       |                              |
